Yale-New Haven Hospital Nephrology Medical Unit

Located on the 34-bed general medical unit on Yale-New Haven Hospital’s 9-7, our Nephrology Medical Unit offers 12 telemetry beds to patients requiring dialysis.

As a part of 9-7, the Nephrology Medical Unit is home to the “hospitalist” service, and our nurses enjoy geographic localization of our medical team. We’ve found that it’s much easier to care for complex medical patients with medical staff who offer a consistent presence, day-in and day-out.

Our skilled, dedicated nursing team represents a wide range of experience and tenure, ranging from new graduates with 6 months of experience to RNs who’ve been a part of Yale-New Haven Hospital for more than 30 years. We invite you to join us and discover firsthand the challenges – and rewards – of nursing on the Nephrology Medical Unit.
