Yale-New Haven Hospital Surgical Orthopaedic Unit

The 30-bed Surgical Orthopaedic Unit at Yale-New Haven Hospital treats a diverse patient population ranging from 10-103 years of age, providing expert care addressing joint replacements, hip fractures, disc replacements, spinal fusions, and orthopaedic trauma. We also care for podiatry patients, as well as medical and plastic surgery patients, as the census allows.

We are a busy unit with a challenging patient population, and our staff members constantly challenge themselves to improve patient care. In doing so, their efforts earned the Significant Improvement Award for Patient Satisfaction in 2005. The unit also won an Award of Excellence at the 2008 Service Excellence Conference for their project titled: "Strategies Leading to Improved Patient Satisfaction on an Orthopaedic Surgical Unit."

Our nurses are encouraged to participate in a wide range of unit-based committees and projects including:

- **Educational bulletin boards presented by the staff on a quarterly basis**
- **Participation on the Surgical Cluster committee**
- **Participation on hospital-wide committees**

If you enjoy a fast-paced, challenging environment with a fun, supportive and dedicated staff, the Surgical Orthopaedic Unit is for you. Do not let this opportunity pass you by!
